

Parental E Safety Agreement

I agree to:

- Support the school by promoting safe use of the Internet and digital technology at home.
- Inform the school if I have any concerns over my child's E Safety.
- Work with the school to support and educate my child about E Safety and support the school policy. i.e not setting up Facebook accounts or similar social networking sites when pupils are under age etc.
- Be respectful when online and not write or post derogatory or inflammatory information about the school on any social media or attack any pupil, member of staff or member of the school community.
- Discourage my child from watching films or playing video games that are not age appropriate.
- Be aware when using a tablet or phone that my child can access the Internet, often without security measures in places, and so I will monitor this usage.
- Monitor what my child sees on the Internet at home.
- Support the school's sanctions if my child breaks the ICT User Agreement or school E Safety rules.
- Talk to my child about how to keep safe online and if possible attend school events promoting E Safety awareness.
